Shivalik Bimetal Controls Limited

Founded in 1984, and headquartered out of New Delhi, Shivalik Bimetal Controls Limited is a process and product engineering specialised business based in India. It manufactures and sells thermostatic bimetal/trimetal strips for switching components used in electrical, electronics, automotive, and industrial applications. The Company also makes shunt resistors for use in the high-growth automotive and industrial equipment segments. The rising demand for switchgear, battery management and smart metering systems also conveys solid long-term prospects for Shivalik’s product lines. With its unique business model based on proprietary bimetal technologies and niche solutions that OEMs demand, Shivalik thrives in an industry with high entry barriers. Today, as a valued vendor, the Company is making a mark in supplying high-quality bimetals and shunt resistors to the fast-emerging electric vehicles and customisable smart meters of the future,

Shivalik’s highly experienced management has led the Company to prominent ownership in technology and applications. Its solid balance sheet, combined with prudent capital management, drives Shivalik’s robust growth potential. With plants in Chambhaghat and Kather, Solan, operated by a team of ~1000 vastly skilled people, Shivalik serves more than 300 clients globally.
